System Summary (2)

|     |                      |
|-----|----------------------|
| 0.0 | Classification label |
| 0.0 | Spawns processes     |

Networking (4)

|     |                                                   |
|-----|---------------------------------------------------|
| 0.0 | Performs DNS lookups                              |
| 0.0 | Uses HTTPS                                        |
| 0.0 | URLs found in memory or binary data               |
| 0.0 | Connects to IPs without corresponding DNS lookups |

Analysis Advice (1)

|     |                                                                                                                                 |
|-----|---------------------------------------------------------------------------------------------------------------------------------|
| 0.0 | Uses HTTPS for network communication, use the 'Proxy HTTPS (port 443) to read its encrypted data' cookbook for further analysis |
|-----|---------------------------------------------------------------------------------------------------------------------------------|

Phishing (2)

|     |                                         |
|-----|-----------------------------------------|
| 2.0 | Detected javascript redirector / loader |
| 0.0 | HTML page is missing a favicon          |

Defense Evasion

Indicators

- T1055Process injection (confidence: low)

Defense Evasion

- T1055Process Injection (confidence: low)

Command and Control

- T1573Encrypted Channel (confidence: low)
- T1095Non-Application Layer Protocol (confidence: low)
- T1071Application Layer Protocol (confidence: low)
